- Ethical and Professional Issues in Computing & Digital Media

Coleg Gwent

BTEC Extended Diploma in

Level 3

2011 – 2013

St Julian's School

Compulsory Education (GCSE & A-levels)

2007 - 2010

Personal Projects

Forkify

A recipe web app designed using vanilla JS. It fetches data from an external API and manipulates the DOM elements to output results onto an HTML page. Relies on both Event Handling and use of Objects; as users can change the measurements of each ingredient by dynamically specifying the number of servings needed.

Pentagon

A mockup version of local insurance broker's landing page built using the Bootstrap 4 framework. It's a responsive application via the use of Bootstrap Grid and Media Queries. It also possesses internationalization features by containing a translation to Welsh toggle button
